

Patrick Mankaryous

Developer | React (Native), TypeScript, Node.js
@patrick.m.developer@gmail.com | Amsterdam | +31641915384

SUMMARY

Skilled developer with a deep expertise in JavaScript, TypeScript and React. My unique background as a technician and chef has fine-tuned my attention to detail and my passion for crafting delightful experiences, which I now channel into developing great software. My enthusiasm for tackling tech challenges and my commitment to continuous learning bring energy to the teams I join.

EXPERIENCE

Software Developer

2022 - present

Winc Academy

Throughout this journey, I've created multiple applications and gained a solid understanding of front-end and back-end technologies, including:

- JavaScript
- TypeScript
- React (Native)
- Redux
- Various CSS Frameworks
- Node.js
- SQL/PostgreSQL
- Git

Welder, Demi-chef, Plumber

2012 – 2022

Various companies

I started my career at 14 in Amsterdam, beginning as a dishwasher in the restaurant industry and progressing to the cold kitchen. After completing my installation technology education, I pursued a role as a plumber, but quickly realized it wasn't the right fit for me. I then spent five years as a cook, advancing to the position of demi chef. Later, I transitioned to welding, where I worked for several years and earned my welding certification.

In this roles I learned some valuable skills such as:

- Timemanagement
- Teamwork
- Communication
- An eye for detail
- Problem solving
- Adaptability
- Organized
- Leadership

PROJECTS (Live demos available on GitHub)

- [Weather App](#)
- [Event App](#)
- [Booking Management System](#)
- Chat App (*In Progress*): A professional self-help chat application built with React Native, developed with a professional developer as a volunteer project. It will soon launch on the App Store.

EDUCATION

Full-Stack Development	@Winc Academy	2023-2024
Installation Technology	@ROCvA	2012-2014
VMBO-T (Economy)	@De Apollo	2010-2012
HAVO/VWO	@Pieter Nieuwland College	2008-2010

STRENGTHS

Problem-Solving

Resourceful and independent thinker who collaborates effectively. I leverage strong research skills to efficiently devise solutions.

Creativity

I love making things from scratch, whether it's crafting something tangible or writing elegant code. Creativity is a fundamental part of who I am.

Adaptability

A quick learner, I excel at grasping new workflows and technologies with quickly. I enjoy the challenge of figuring things out on the go.

SKILLS

JavaScript

TypeScript

React

Prisma

Node.js

Git

PASSIONS

Coding

Coding is a core interest of mine that shapes both my career and free time. I'm dedicated to improve my skills and staying updated with the latest advancements.

Cooking

I have a true passion for cooking, I enjoy cooking flavorful and tasteful dishes.

Gaming & Movies

In my free time, I enjoy watching movies and playing games to relax and unwind. It's a great way to clear my mind.
