SUMMARY

Skilled developer with a deep expertise in JavaScript, TypeScript and React. My unique background as a technician and chef has fine-tuned my attention to detail and my passion for crafting delightful experiences, which I now channel into developing great software. My enthusiasm for tackling tech challenges and my commitment to continuous learning bring energy to the teams I join.

STRENGHTS

Problem-Solving
Resourceful and independent thinker who collaborates effectively. I leverage strong research skills to efficiently devise solutions.

Creativity
I love making things from scratch, whether it's crafting something tangible or writing elegant code. Creativity is a fundamental part of who I am.

Adaptability
A quick learner, I excel at grasping new workflows and technologies quickly. I enjoy the challenge of figuring things out on the go.

EXPERIENCE

Software Developer   2022 - present
Winc Academy
Throughout this journey, I've created multiple applications and gained a solid understanding of front-end and back-end technologies, including:

- JavaScript
- TypeScript
- React (Native)
- Redux
- Various CSS Frameworks
- Node.js
- SQL/PostgreSQL
- Git

Welder, Demi-chef, Plumber   2012 – 2022
Various companies
I started my career at 14 in Amsterdam, beginning as a dishwasher in the restaurant industry and progressing to the cold kitchen. After completing my installation technology education, I pursued a role as a plumber, but quickly realized it wasn't the right fit for me. I then spent five years as a cook, advancing to the position of demi chef. Later, I transitioned to welding, where I worked for several years and earned my welding certification.
In this roles I learned some valuable skills such as:

- Timemanagement
- Teamwork
- Communication
- An eye for detail
- Problem solving
- Adaptability
- Organized
- Leadership

SKILLS

- JS JavaScript
- TS TypeScript
- React
- Prisma
- Node.js
- Git

PROJECTS (Live demos available on GitHub)

- Portfolio
- Weather App
- Event App
- Booking Management System
- Buddy App *(In Progress)*: Currently developing a self-help chat application using React Native, in collaboration with another experienced developer. This volunteer project will soon be launched on the App Store.

PASSIONS

Coding
Coding is a core interest of mine that shapes both my career and free time. I'm dedicated to improving my skills and staying updated with the latest advancements.

Cooking
I have a true passion for cooking, I enjoy cooking flavorful and tasteful dishes.

Gaming & Movies
In my free time, I enjoy watching movies and playing games to relax and unwind. It's a great way to clear my mind.

EDUCATION

Full-Stack Development	@Winc Academy	2023-2024
Installation Technology	@ROCvA	2012-2014
VMBO-T (Economy)	@De Apollo	2010-2012
HAVO/VWO	@Pieter Nieuwland College	2008-2010
